SECTION 1 Company Introduction

Welcome to GMCO

Electromechanical Works LLC

We take a great pleasure to introduce our company, we are one of the fast growing Electromechanical contracting companies in Dubai which has made a great leap forward in tune with the exponential economic growth of the region. Registered under license name of "GMCO Electromechanical works L.L.C" issued by Dubai Economic Department, since 2011, the Firm has played a catalyst role in Providing experience, expertise & resources to meet the demands of today's fast track project.

We executed entire commercial air conditioning and electromechanical works for all types of projects, viz. government projects, hotels, shopping malls, residential complexes, and private commercial / residential buildings, villas and factories in all sectors of real estate and infrastructure. We also provide complete MEP contracting services installation and commissioning include project Maintenance, Facility Management, MEP design, Procurement quantity surveying, Budget and BOQ production services to meet specific client requirements.

*We believe that
Human Resources
plays the vital role!*

The Company's Quality Control is being done by the Technical Staffs, which is high experience in the same field such as, Electrical Engineers, Plumbing Engineers and HVAC Engineers with execution skills, site managing skills and high technical experience; Trained Foremen with labor management and Gulf experience; and skilled laborers with high performance.

*Our main areas of
expertise are HVAC,
Electrical (Medium &
Low Voltage Systems),
Mechanical, Fire
Protection & BMS
Systems*

We believe that the Human Resources plays a vital role, and to achieve optimum organizational goals and considering their welfare, we assured that our Employees are covered under the Group Insurance Policy for accident shield and indemnity.

Our MEP Team consider each and every project as a work of art and knows that customer satisfaction is achieved, first, by carefully listening to our clients and studying their needs, second, by suggesting thoroughly studied solutions and agreeing on a plan, and finally, by executing the works in accordance with the set plan.

Company Quality Policy

6.2

HSE Management System

GMCO ELECTROMECHANICALWORKS LLC COMPANY PREQUALIFICATION

6.1 Company Quality Policy

It is the policy of GMCO Electromechanical Works LLC to implement a quality management system and HSE Management System on the project incorporating current practice and to meet the requirements of the contract. The fundamental objective of implementing the system is to ensure that GMCO company consistently complies with contractual, legal and financial requirements on the Contract, and ensuring the following:

- Client satisfaction
- Achieving conformity and improve the effectiveness
- Eliminating no value-adding activity
- Reduced waste and rework
- Preventing human error
- Improved productivity
- Operate effectively to carry out the work without delay and defects.

It is the Company's responsibility to carry out the works in full compliance with the requirements stated in the Contract, local law, ordinance and other regulations on quality, environment and health & safety.

GMCO ELECTROMECHANICALWORKS LLC COMPANY PREQUALIFICATION

6.2 Health, Safety and Environment Management System

Since the early formation of GMCO Electromechanical Works LLC we have sincerely considered the necessary measures in all safety and health aspects. Practical procedures has been developed and implemented as a system to ensure the safety and health of every person engaged to the job or on one adjacent to it.

To maintain the Safety Policy and to achieve the Safety Objectives, as defined and supported by the Management, procedures are well explained to all employees and implementation of rules and regulations established in the safety manuals is inspected and audited regularly.

Our Safety System and Safety Rules and Procedures are subject of review by the Management. Regular meetings are arranged to review the safety procedures and improve the safety programs.

Our objective is a safe work place with a “zero accident” policy that should be implemented in accordance with the United Arab Emirates Industrial Safety and Health Regulations as well as Commodore Contracting Health and Safety Policy.

Our goal shall be achieved with a vigorous training program that should involve all of our employees and safety recording system, to help guide us and point out any safety concerns and needs that may arise.

We encourage and urge our teammates to “THINK SAFETY”
